

COVID-19 Acquisition/Contracting

MITRE's Acquisition in the Digital Age (AiDA) team curated a [COVID-19 page](#) on our AiDA website focused on Acquisition and Contracting for government COVID-19 response. Content includes contracting strategies and flexibilities leveraging both existing authorities, and authorities that have been enacted for COVID-19 response. It also highlights COVID-19 contract vehicles, current contracting solutions the workforce is pursuing, and initiatives seeking to address shortfalls in medical supplies and equipment to support COVID-19 response. As the federal government (as well as state and local governments) seeks to execute contract awards using funds authorized by the CARES Act for COVID-19 response, it will be key to have relevant information at the ready. The objective is to highlight those available resources and enable to federal acquisition workforce to move fast and quickly execute contract awards to get much needed critical resources in the hands of those fighting this pandemic. If you have solutions that are addressing shortfalls in COVID-19 related supplies and equipment, please let us know at aida@mitre.org. Please share this resource with your network!
