Our MISSION is to build pathways to discover, accelerate, and deliver innovation from non-traditional sources to solve national problems.

NEWS

Leveraging Innovation Ecosystems to Enhance Patient Empowerment

With recent changes in law and regulation, consumer products that collect health data – and how they handle that data – are in the spotlight. For example, with the 21st Century Cures Act signed into law in December 2016 and the subsequent promulgation of two rules emphasizing patient access to health data (the Office of the National Coordinator for Health Information Technology ...

Fed Supernova Conference

As a part of the MITRE Bridging Innovation mission to build pathways to discover, accelerate, and deliver innovation from non-traditional sources, MITRE co-sponsored the recent Federal Supernova conference hosted by Capital Factory. The virtual conference focused on defense innovation in Texas while also presenting successes in other geographic areas. The format included well-known national presenters, a variety of panels, and ...

Fed Supernova Presented by Deloitte | Cybersecurity Track

RRTO Innovation Outreach: Connecting the DoD to Innovative, Emerging Non-Traditional Companies

The Rapid Reaction Technology Offices is looking for DoD organizations who would like to bring in innovative technologies and would benefit from assistance reaching out to the start-up ecosystem and other non-traditional companies. The RRTO helps identify and expose emerging commercial technologies to DOD organizations that can help solve their technical challenges. Through

collaboration with Government, commercial technologies can ...
